You can change the settings at any time (digital footprint icon in the bottom left corner). For more details, see the individual configuration and our privacy notice. In this series we are providing you with easy formulations and the post is without filling and lanugine. Today we are bringing a formula for a simple shower gel suitable for those who do not have much experience with surfactants. The main component is Plantapon SF which is a mixture of surfactants (INCI: sodium cocoaphoacetate (e) glycerin (e) lauril glucoside (e) sodium cocoil glutamate (e) carboxylate of laurilic glucose). It's easy to use, you don't have to worry about calculating or even understanding the surfactants and their chemistry. It is perfumed with peppermint water and bergamol oil to offer you a refreshing shower experience, but of course you can use other scents and hydrosols at your choice. You can make it more exciting by adding a small amount of soap color or micas. IMPORTANT! Most sulphate-free surfactants are thickened by the addition of gums. Here the addition of cocamidopropil betaine and the reduction of pH will create a beautiful viscosity similar to honey. If you can get it, feel free to include a chelator such as 0.10% sodium thick and reduce water with the same amount. Plantapon® SF NA is an exceptionally mild and ready-to-use surfactant base that is free of alkyl sulfates, betaine, ethylene oxide and preservatives, but offers exceptional performance. The mixture requires only water, fragrance and preservation to be the basis of a delicate skin cleaning system. Other benefits of PlantaPoná® SF Na include: fusion of sulphate surfactants ilibisnes ilibisnes ellep alled inoizacidnevir rep oddeerf a elibamrofsart elaedi e eraiggenam ad elicaf otafos id eveil otlom icigoloce e noc olrednof elibissop "À es ehcna ,inoizalumrof ellen ivittaoisnet id alecsim acinu'1 emoc etnemlovecaip anoiznuf ehc erasu ad elicaf alecsim anu "À AN FS @ÀnopatnalP .otaniffar ottodorp emoc olos etsise AN FS @ÀnopatnalP ?otaniffar non o otaniffaR .ovittaoisnet ottodorp átuctrohsá leb nu "À am ,oN ?evres iT .ouqcaicsir alleb noc rehtal accir ,alleb anu ecudorp e eclod À .aizilup id inoizalumrof ertson ellen erasu ad elicaf otlom iramirp ivittaoisnet id alecsim anu emoc aroval AN FS @ÀnopatnalP ?inoizalumrof ellen omaisu ol ©ÀhcreP auqca'lled ÀtilibuloS ,acinoia e icinoi non ,iciretofna ivittaoisnet eneitnoc AN FS @ÀnopatnalP egrahC 5.7á5.6 Hp %03 li atnoc ovitta atsfirus II y-etnegretd ,ocitsirettaraC tneC\$.%05-02 la ozzilitu'1 ecsireggus AN FS @ÀnopatnalP id erottudorp II ozzilitu id ossaT ollaig odiauqil led ottepsA otalissobraC lyruaL id oisoculG)e(etamatuL G oidos id occoC id edisoculG)e(lyruaL edisoculG)e(nirecylG)e(etatecaohpmaocoC muidoS ICNI .á@ÀnopatnalPá ammag alled otibmaállen snoitaerC eraC FSAB ad otazzilaer otafos aznes dednelb-erp tnatcafrus ottodorp nu "À AN FS @ÀnopatnalP ?
