This is the official website of Basically Games, the developer of the Baldi's Basics series! Here you'll find all official Basically Games games, merch and announcements.open tab to find the mod menu requiers 64 bit windows xp to any newer windows use 7zip or winrar if you want to put mods convert the file to zip in the following video its not my video all credit goes for the video is whatvwant This is a mod for the game "Baldi's Basics in Education and Learning" and its subgames.Want to walk through walls? Fly around? Mess with characters? Try some challenges that wouldn't be possible in the game normally?The Mod Menu got you covered.There are certain version differences.The unlocked camera does not work on Android by default, due to limitations of my workaround.The Field Trip Demo version is based on an old Mod Menu version (1.9.1). You'll need the original game for this mod. Get it here (basically-games.itch.io) Ads keep us online. Without them, we wouldn't exist. We don't have paywalls or sell mods - we never will. But every month we have large bills and running ads is our only way to cover them. Please consider unblocking us. This mod menu allows you to hack the game and more. The collection includes 4 games with the mod menu already installed, so you can enjoy it without having to manually add the files to the game folder. Have fun and enjoy hacking! Games and Release Dates: - Baldi's Basics Classic (March 31, 2018) - Baldi's Basics Field Trip Demo (July 24, 2018/August 18, 2018) - Baldi's Basics Birthday Bash (April 1, 2019) - Baldi's Basics Classic Remastered (October 21, 2019) Platforms Supported: - Windows - Mac - Linux - Android Opening Game File Means: - Windows = exe - Mac = app - Linux = x86 - Android = apk Comments (509) This game is not what it seems...Inspired by creepy/bad edutainment games from the 90s, Baldi's Basics is a meta horror game that's really weird, with no real educational value to be found. The goal of the game is to collect seven notebooks, and then escape the school, but that's easier said than done! You'll need to learn all the ins-and-outs of the game to come up with a winning strategy and avoid being caught by Baldi. Learning how to use Baldi's friends to your advantage, wisely managing the items found throughout the school, and memorizing the layout of Baldi's school are all keys to success!This game has two modes, story and endless! Story mode requires you to collect 7 notebooks and then escape the school to win. The more notebooks you collect, the faster Baldi will become! Simple, but very challenging. Endless mode is a challenge to see how many notebooks you can collect before being caught by Baldi. Over time Baldi will speed up, but each time you successfully solve the problems in a notebook he'll slow down. The longer you can keep his speed down, the more notebooks you can collect!This is an official port of the original game with touch screen controls and controlier support! Check out the options menu to adjust these features to your liking!*Powered by Intel technologySafety starts with understanding how developers collect and share your data. Except there is a few problems. When I try to use the boots on arts and crafters it does not work. And on endless mode when I get 8 notebooks baldi sounds like a car! (I mean he's fast). And sometimes I glitch into a wall. But other than that this game is great! But still fix the other problems. Bye.5,358 people found this review helpfulDid you find this helpful?The nostalgia is crazy with this game. I love this game and I can never grow out of it. Haven't played in a long time so I re-downloaded it and it's awesome. I feel like they could update it if they wanted to. But it hasn't been updated ever. Although I understand a little. There's no ads either so that's pretty awesome. And they say it's a horror game but it's not even scary honestly. Unless you're like two. I Recommend this game. I only gave it four stars because it has no updates757 people found this review helpfulDid you find this helpful?I'll still find the classic version of baldi fun to play now and then. Nothing I can normally entertain myself for a while with of course, but for genuinely playing and beating it it's a pretty fun challenging game. There still might be a little unfair or more challenging stuff compared to them in the plus version but this is still nice to play around with. Love the Baldi community as well, fun mods and stuff :)3 people found this review helpfulDid you find this helpful?Updated the Android Target SDK to the latest version to maintain compatibility with newer devices.Updated the copyright date and the version number on the title screen.Updated the "merch store" link in the menu.flagFlag as inappropriate SMALL NOTE: If you do not see the install successful screen after launching (it only appears once unless you modify registry), try the shortcuts, if it still does not work you may have messed up a step or two. Written tutorial for nerds: First of all, get BeplnEx 5 from here: (Do not get BeplnEx 6) This mod was only testedon Windows, so select the proper architecture based on your system, and download. Then, extract the files from your downloaded BeplnEx version directly into your installation of BB+/BBPR. From there, go into the BeplnEx folder, and make a folder called "plugins", if it does not exist. Then, download Baldi Cheats, make sure to download the version for your game! From there, get into the folder that is NOT the Source Code, and take the dll, and put it inside the plugins folder you just created. Then, start the game and check the keybinds. If it still does not work feel free to contact me by email.NOTE: This is a reupload of the BBIEU Mod menu by Fasguy and I do not own the mod. Credits to him for creating it. Please be aware that MacOSX or Linux versions may not work as they have not been tested.Note that the Mod Menu's AssemblyCSharp.dll is already added in the file. No additional files required. (Unless you want to mod the game) Ads keep us online. Without them, we wouldn't exist. We don't have paywalls or sell mods - we never will. But every month we have large bills and running ads is our only way to cover them. Please consider unblocking us. Thank you from GameBanana You can also check the GitHub Repo for downloads and issues. You cant perform that action at this time. Ask the publishers to restore access to 500,000+ books.
