Google Play Google Play Google Play Family Link Google Play Google Play Google Play Google 6 Google One Google Google Play Google Play Google Play / Android Apps are designed for use with supported Android and Chromebook devices and can't be used on Windows or Mac computers. [Play Apps][Video]How to get Android apps using the Play Store app On your device, open the Google Play Store or go toplay.google.comon a web browser. Search or browse for content. Select an item. Select Install or the item's price. Follow the on-screen instructions to complete the transaction and get the content. If you made a purchase before: Select your payment method with the Down arrow . If it's your first purchase: Your payment method will be added to your Google Account. Tip: To change your display language on Google Play, change the language in your Google Account settings. Find apps for your watch, tablet, TV, car, or other device You can use Play store filters to search or browse apps and games that are compatible with each of your devices. On your phone: Open the Google Play app . At the top, search for an app or content. In the dropdown menu, choose a device associated with your account. On your computer: Go to play.google.com. At the top right, click the magnifying glass . Then, search for an app or content. Select thedevice dropdown and choose a device associated with your account. After you follow these steps, in your search results, youll find the apps that are compatible with your device. Tip: To use the search filter, you must be signed in to an account associated with multiple Android devices. Apps and digital content are connected to your Google Account, not just your device. You dont have to buy them again if you get a new device. You can use them on multiple devices. Learn how to install apps and content from your phone or computer to other devices. Content cant be transferred between accounts If you own multiple accounts, you cant transfer content between accounts on Google Play. If you have multiple accounts on your device, before you complete your purchase, make sure youre signed in to the account you want to use. If you purchased an app on the wrong account, contact the app developer. They may give you a refund for your purchase. Post to the help community Get answers from community members You can get apps, games, and digital content for your device using the Google Play Store app.The Play Store app comes pre-installed on Android devices that support Google Play, and can be downloaded on some Chromebooks. On your device, go to the Apps section. Tap Google Play Store . The app will openand you can search and browse for content to download. If you have issues locating the Play Store app, or opening, loading or downloading content in the app, it could be due to a number of reasons. To troubleshoot these issues, try the following topics:The Play Store doesn't open or load any content Downloads from the Play Store don't work Post to the help community Get answers from community members If your PC meets the minimum requirements, you can install Google Play Games on PC. Begin installation On your Windows computer, go to play.google.com/googleplaygames. Click Download. To install the app, open the downloaded file, then follow the instructions. The installation can take a few minutes. Tip: If your computer didnt meet the minimum requirements, youre notified and the installation wont continue. Set up virtualisation settings To play mobile games on your PC, Windows virtualisation settings may need to be turned on. If Windows Hypervisor Platform is turned off, you may get a prompt to turn it on during installation. Restart your computer for this setting to take effect. If Windows Hypervisor Platform is turned on already, you won't get this prompt. To play many games in the catalogue, turn on CPU virtualisation in your computer's BIOS settings. Tip: If you installed other emulators on your computer, they might not work when Windows Hypervisor Platform is turned on. Learn how to turn off Hypervisor after installation. Sign in to your account To play across devices, make sure that you sign in with the same account on your mobile device and your PC. Tip: Only the first user who installed Google Play Games on PC can open it and play games. Troubleshoot installation errors For more info, check the list of error codes and solutions. Address any minimum requirements that are missing. The specific items are noted during installation. For more info about how to update your PC, contact the PC manufacturer. If prompted, turn on Windows Hypervisor Platform when you run Google Play Games on PC. Uninstall Google Play Games on PC through Windows 'Apps and features', then reinstall it. Restart your computer. Tip: If you try all of these troubleshooting steps and still can't install Google Play Games on your PC, submit your feedback: Run the Google Play Games installer. When you encounter an issue, click Send feedback. Tick Send system information. In the message box, add your feedback and enter '#gpginstall'. Click Send. We appreciate any feedback that you can send.
